ingenico®

iPP200 Series

• Highest Security

The iPP200 Series meets the latest hardware and software security requirements including: PCI-PTS 2.x and 3.x. Also complies with SRED and open protocol modules. The optional PIN privacy shield guarantees confidentiality of PIN entry.

• PIN Entry and Contactless

Offering secured PIN entry and Contactless payment, the iPP200 Series also allows NFC new payment add-ons such as loyalty programs, couponing and wallets use cases.

• Designed for Merchants

Trim and lightweight, optimized for fast check-out, the iPP200 Series is designed to meet merchant environment needs. Very compact, the iPP200 Series takes up minimum counter space. Color backlit display, 15-key keypad, and 4 function keys provide day-to-day convenience and comfort.

• Enhanced Readibility

iPP280 integrates a 4-line-display with adjustable color backlight to enhance readability for consumers.

• Easy Connectivity

Integration with Ingenico iCT series has never been easier thanks to the iPP200 series' powered USB connection.

• Telium 2

Powered by Ingenico, Telium 2 technology is the result of 30 years' experience in the payment industry. Secure, highly integrated and fast, Telium 2 is the world's best platform to provide payment services. It provides a fully scalable, reliable operating system embedded into the 20 million terminals deployed worldwide.
